Additional comments:

I so much like publishing with international journal of circuits, systems and signal processing. My reasons are stated as follow:

1. The journal reviewers drill the authors to know what they did not know before
2. Their journal reviewers do not leave any stone un-turn while checking the responses of the authors to their comments.
3. The journal provides official/legal assistance when there is need for that to the authors

Finally, I wish to encourage friends and other people to submit their outstanding research manuscripts to the international journal of circuits, systems and signal processing for probably publication .
